

## Year 4: Life Processes

		Start	Check
<b>CORE</b>	I can name the different parts of the human digestive system.		
	I begin to understand what each part is doing.		
	I can say how to take care of my teeth.		
	I can explain how a lion's teeth help it to eat its food.		
	I can say why the shape of each tooth makes it good at its job.		
	I can explain the words predator and prey.		
	I can write a food chain and know what always comes first.		
	I can produce a food chain using the arrows correctly.		
	I can explain what a producer and consumer is.		
	I can group animals and plants and explain why they belong to their group.		
	I can use a key myself to identify some animals and plants.		
	I can give an example of how 2 different animals have adapted to suit the conditions of their habitats.		
<b>ADVANCED</b>	I can give an example of how changes to a habitat can affect an animal.		
	I can create a food web and begin to understand more complex feeding relationships.
