

## Year 6: Evolution and Inheritance

		Start	Check
<b>CORE</b>	I know what fossils are and how they have been created.		
	I understand that fossils provide information about living things that inhabited the Earth millions of years ago.		
	I recognise that there are differences in adults and their offspring.		
	I begin to understand the scientific ideas behind this.		
	I can describe how certain animals are adapted to their environment.		
	I understand the term "evolution".		
	I begin to understand that adaptation may lead to evolution.
